Important Safety/Assembly Instructions

This product should be installed by a suitably qualified and proficient person. The fitting instructions should be followed carefully to ensure a proper and safe installation. Failure to follow these instructions could result in future injury.

These instructions and list of parts assume that installation is done against solid/tiled walls.

Please check this product for damage prior to starting the installation. No claims can be made after the product has been fitted.

PLEASE NOTE :The minimum and maximum adjustment sizes noted on the product brochures are based on perfectly plumb walls and trays.

IMPORTANT - Missing Components

Please check this product for missing components prior to installation.

For spare parts visit **www.claygate.co.uk**

IMPORTANT - Installation site

1. Ensure the top surface of the shower tray on which the enclosure will be installed is level in every direction.

2. The tiles or other wall finishing should be effectively sealed at tray edges.

3. Tiles should extend at least to the corner of the tray and a minimum of 2. 0 meters from the top of the tray.
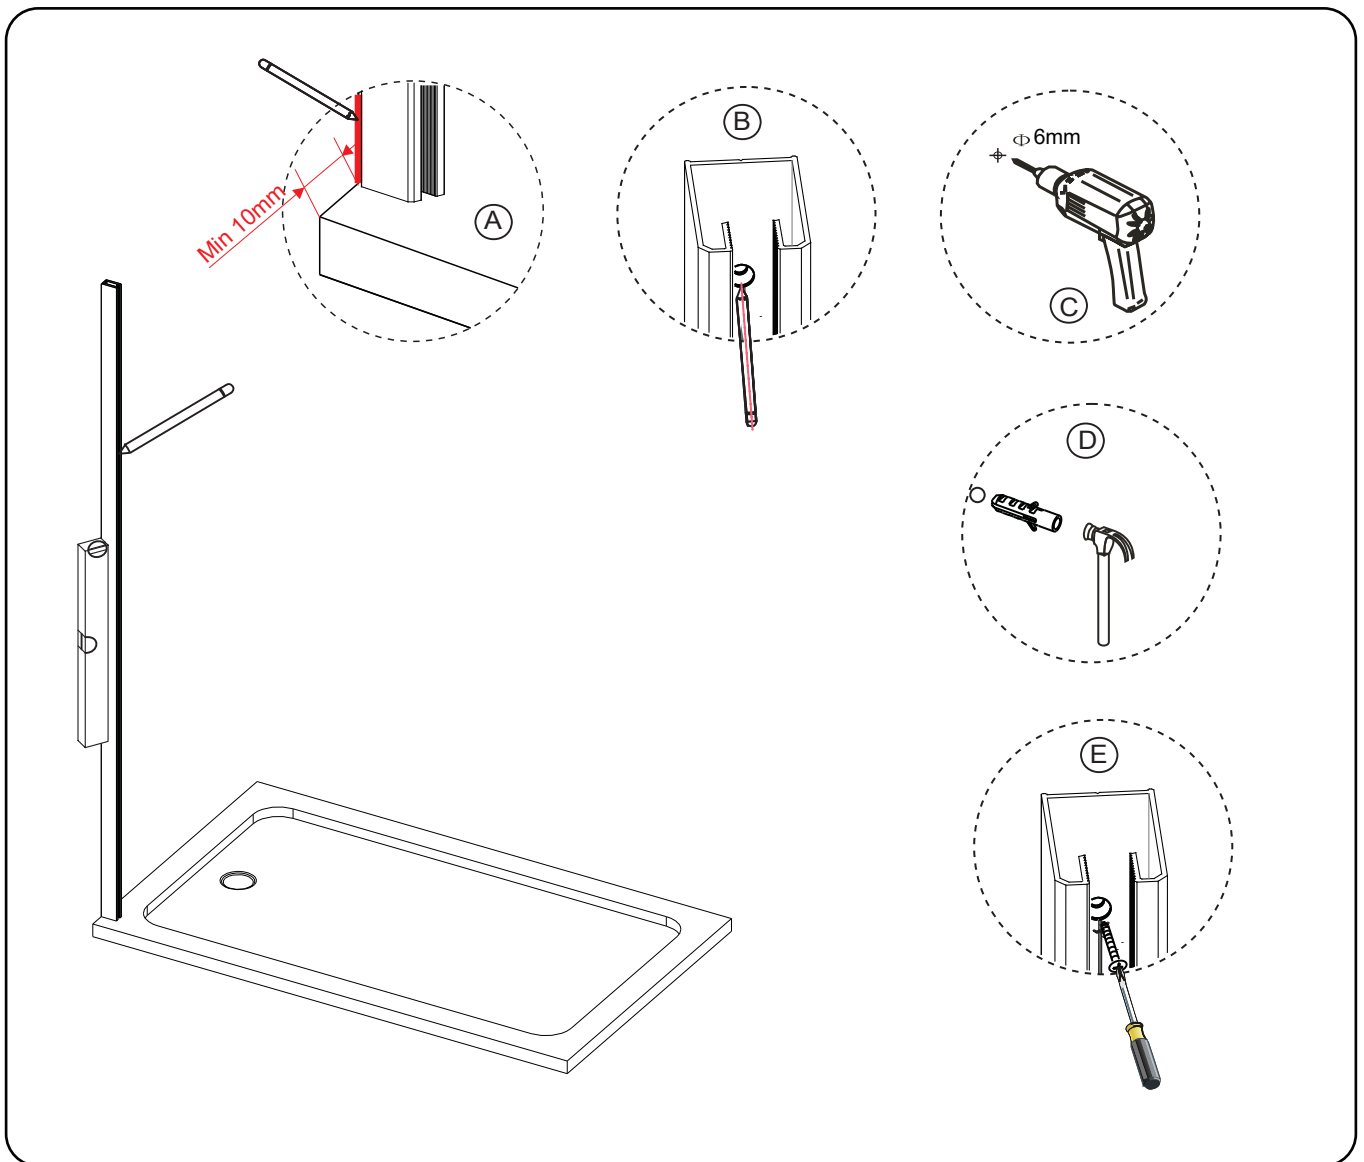

PROCEDURE
100% level

TRAY MUST BE 100% LEVEL IN ALL DIRECTIONS

Ensure the shower tray is level in all directions and is properly sealed to the wall. The wall must be tiled down to the top edge of the tray. **Do not angle out bottom tile.**

TRAY MUST BE SEALED FULLY AROUND WHERE THE TRAY MEETS THE WALL.

FIX FRONT PANEL WALL PROFILE

Min 10mm

Ⓐ

Ⓑ

Φ6mm

Ⓒ

Ⓓ

Ⓔ

Step 1.
Place the wall profile onto the edge of the tray, roughly 10mm from the front of the shower tray edge.
Ensure the wall profile is level to the wall. If the panel is fitted without a tray, please ignore Diagram A.

Step 2.
Mark the position for fixing the wall profile to the wall through the 4 pre-drilled holes in the wall profile（Diagram B）.

NOTE: You may find it easier to mark and drill the wall if you apply masking tape to it first.

Step 3.
Drill the holes on the wall through the marked points with 6mm masonry drill bit then insert the wall plugs（Diagram C/D）

Step 4.
Fix the wall profile to the wall with 4 ST 4x 30 screws（Diagram E）

0-15

F

Step 5.
Push the glass panel onto the wall profile.

G

INSIDE

Step 6.
After the glass panel is in its final position, press the seal into the wall profile securing from bottom to top（DiagramG）.

MEASURE

H

I

Step 7.
Measure the support bar tube length then cut it to the required size (Diagram H).
Step 8.
Fit the support bar onto the glass panel, ensure the support bar is level then mark the wall fixing hole onto the wall (Diagram I).

∅6mm

K

L

M

N

O

P
Step 9.
Drill the hole on the wall through the marked point using 6mm masonry drill bit then insert wall plug(Diagram J / K).

Step 10.
Secure the wall fixing onto the wall using ST 4 x 30 screw then fix the support bar onto the wall fixing (Diagram L/M).

Note: Insert the T-piece (part 8) onto the support arm bar if the panel will be fitted with an end panel.(Diagram P)

Step 11.
Secure the glass clamp onto the glass using 2 M8 grub screws (Diagram N/O).

APPLYING SILICONE SEALANT
Step 12.

Fit the top cap onto the wall profile (Diagram Q)

24 HRS

DO NOT USE THE ENCLOSURE FOR 24 HOURS AFTER SEALING

Applying Silicone Sealant

Sealing Inside
Seal from the top of the wall profile to the bottom on the INSIDE between the wall profile and the wall.
IMPORTANT: Do not apply sealant on inside of the tray.
**Sealing Outside**
Seal from the top of the wall profile to the bottom between the wall profile and tiles on both sides. Also seal along the bottom where the glass meets the tray.

FIX RETURN PANEL

A

B

C
Step 1.
Press the seal onto bottom edge of the return panel glass then insert silicone into the groove of the upright profile(Diagram A).
Step 2.
2.1 Push the return panel to the Wetroom glass panel,ensure the cut of the hinges placed inside. (Diagram B)
2.2 After the glass panel is in its final position, press the seal into the profile securing from bottom to top（Diagram C).

Cleaning Instructions

It is important to clean your Artesan˙ shower enclosure after every use. Please wipe down all glass and metal parts with a clean soft cloth. Ensure that all residual water on the glass is removed after every use.

Usage

For reliable, watertight performance from your Artesan˙ enclosure your shower head should not be positioned so that the shower sprays directly onto the enclosure door. Failure to comply with this may cause the shower to leak. Outward opening doors may cause water to drip onto the floor, please ensure that the floor covering immediately outside the enclosure will not be affected by water.
This product has been treated with easy clean glass treatment, a protective barrier which creates a 'non-stick' surface on your glass, helping to resist lime scale build up and water spots.

Aftercare

Easy clean glass can be cleaned with any suitable nonabrasive glass cleaner - with PH value of between 3-11; the coating will not be damaged. Avoid surfactants and heavily perfumed products. Vinegar and water based products are very effective. Do not use abrasive scrubbing cleaners or equipment for cleaning.
